QUT CIP2

Queensland University of
Technology, Kelvin Grove

A world-class creative arts
educational building.

QUT CIP2

Pushing the boundaries of education architecture

WORLD CLASS FACILITY

QUT Creative Industries Precinct 2 (CIP2) houses a range of creative industries - dance, drama, music, arts, and design. The design responds spatially and pedagogically to consolidate interdisciplinary spaces in a blended building.

In an international context, attempting a diverse co-location of arts disciplines is unique.

PIONEERING PEDAGOGY

CIP2 presents the creative industries in a contemporary and engaging manner.

It redefines the importance of the interdisciplinary over the traditional silo model. Importantly, the project pioneered unique structural, servicing and acoustic solutions to stack very diverse studio functions.

PERFORMANCE & DISPLAY

CIP2 reconceives hidden studio spaces as transparent and engaging; aligning to creative industries pedagogy of performance and display.

CIP2 adaptively reused and integrated heritage listed buildings to enhance and celebrate their unique architectural qualities.

RECOGNITION

QUT CIP2 has received the following at the 2019 RAIA QLD Architecture Awards:

Jennifer Taylor Award for Educational Architecture

Don Roderick Award for Heritage Architecture

GHM Addison Award for Interior Architecture

Commendation for Sustainable Architecture
